

Robert Mackenzie Presentation

Today the Fingerprint Inquiry has published the PowerPoint Presentation of SCRO expert Robert Mackenzie an expert of nearly 39 years experience.

(Please note that this is a very large file)

This has been heralded as the definitive SCRO response to Pat Wertheim, Arie Zeelenberg and the hundreds of experts worldwide who have criticised the SCRO claim that print 'Y7' has been correctly identified as Shirley's.

Finally I believe we have a clear exposition of the SCRO position and I would urge fingerprint experts across the world to comment on this work positively or negatively either on this forum.
